

CONTENTS

CHAPTER		PAGE NO.
I	INTRODUCTION	
	1.1 Facts about plant tissue culture	1-2
	1.2 Components of tissue culture media	5-4
	1.3 Advantages of plant tissue culture	5-8
	1.4 Physiographical features of Barak Valley	9-10
II	REVIEW OF LITERATURE	
	2.1 Trend of work on Pteridophytes	12-21
	2.2 Trend of work on <i>Dioscorea</i>	22-28
	2.3 Trend of work on Orchid	29-32
	2.4 Trend of work on <i>Kaempferia parviflora</i>	33-37
	2.5 Facts about selected plants	38-48
III	MATERIALS AND METHODS	
	General Technique	49-58
	A. Materials and Methods for <i>Cyathea gigantea</i>	59 -62
	B. Materials and Methods for <i>Dioscorea alata</i> L.	63 -65
	C. Materials and Methods for <i>Arundina graminigolia</i> (D. Don)Hochr.	66 – 68
	D. Materials and Methods for <i>Kaempferia parviflora</i> Wall ex. Baker.	69-71

IV	RESULTS	
	4.1 Experimental findings of <i>Cyathea gigantea</i>	72-81
	4.2 Experimental findings of <i>Dioscorea alata</i> L.	82-88
	4.3 Experimental findings of <i>Arundina graminifolia</i> (D. Don)Hochr.	89-95
	4.4 Experimental findings of <i>Kaempferia parviflora</i>	96-102
V	DISCUSSION	
	5.1 <i>Cyathea gigantea</i>	105-107
	5.2 <i>Dioscorea alata</i>	107-110
	5.3 <i>Arundina graminifolia</i>	110-113
	5.4 <i>Kaempferia parviflora</i>	113-117
VI	CONCLUSION	118-121
	REFERENCES	122-152
